I started working in recruitment in 2014 after graduating from university and joined LTN as an Associate Director in September 2021 to work within the Associate team. I pride myself in providing both candidates and clients with an honest, efficient, and effective recruitment solution and being able to build long-term and lasting relationships with candidates and clients alike.

Prior to joining LTN, I worked within HR Financial Services recruitment and I'm able to draw on these experiences to add real value and insight to the entire recruitment lifecycle.

Outside of LTN I'm a keen watcher and participator in a range of sports including playing rugby for the Law Society RFC, so the world of Legal recruitment feels very fitting.
