I joined LTN as a graduate on the 2022/23 graduate programme, and over the past year I have completed training seats with the Associate, and Partner recruitment teams, as well as our Consultancy team. Over the course of the programme, I provided research support to the Partner, and Consultancy teams for client and business development projects, in addition to learning the skills needed to become a proactive and knowledgeable recruiter. In October 2023 I joined the Associate team as a Junior Resourcer.

I am originally from South Wales and graduated from the University of Bristol with an LLB Law degree. During my studies I spent a year in the Netherlands, which has left me with a lifelong appreciation for cycling and Stroopwafels.

Outside of my career in legal recruitment, I enjoy travelling and sampling as many unique beers as I can – ideally at the same time.
